Part B for August 1916

SUBJECT

Proposals for financing Drainage Project of the Pavanagere Town.

To The Deputy Commr Chitaldrug
No 1074 dt 4.8.16.

States that the question of financing the drainage project of the Pavanagere town must be referred back to the Municipal Council for devising ways and means to provide the moiety of the cost, and that before this is done, the question of Government contribution cannot be taken up

16-16

Subd

20 Under the Municipal Regulation it is one of the obligatory functions of a municipality to provide for proper drainage of the Municipality. Consequently the whole cost will have to be borne from municipal funds. But the Municipality pleads inability and requests for a free grant of one half the cost amounting to about Rs 85000 and for a loan of the other half from State funds

21 Free grants are not generally made for drainage purposes and the policy of Govt in this respect has not been defined as in the case of grants for water-supply purposes [redacted] Any free grant sanctioned for drainage purposes may lead to an inconvenient precedent especially in the present condition of the States' finances.

22 Davangere has already been given a grant of Rs 30000 for water-supply purposes and its request for an additional grant was refused on account of financial pressure. Further, the triennial forecast

NOTE—Contn sheet

Serial No

for the triennium commencing from 1915-16 deprecates expenditure on all unproductive schemes. Under these circumstances a free grant from State funds seems impossible.

But a free grant by Govt seems however promised by

23 As regards the loan asked for, the present policy of Govt is to encourage municipal bodies to borrow from the public on Govt standing as guarantee for the loan. If the Dewangiri Municipality elects to raise a loan locally at 5 or 6% as in the case of the Chitaldroog Municipality and is in a position to provide for the sinking fund and the annual interest and other charges, there is no objection to Govt agreeing to give the usual guarantee.

Bln 13/6/16

24 Govt seem to have agreed however to give a free grant of 1/2 the cost i.e. about 85,000 Rs.

I R,

With reference to your letter No 5940/N1 212-14-1 dated 3rd February 1915 regarding the financing of the drainage project for the town of Davangere, I have the honor to submit herewith a copy of the resolution recorded on the subject by the Municipal Council of the town and to state as follows -

2 The Council is agreeable to bear the moiety of the cost of the project from the funds of the municipality but it is not in a position to advance the money for 2 years to come For the municipality has now taken up the costly scheme of water supply on account of which it had to pay out of its accumulated funds a heavy sum of R 120000 during the current official year and due provision has also been made in the ensuing year's budget of the municipality to pay the balance of R$ 73,000 to complete the project, the closing balance at the end of 1915-16 being thereby reduced to R$ 14,085

3 With the water supply scheme expected to be an accomplished fact by the end of December 1915, there is danger to public health if all the waste water is not drained away properly is allowed to soak into the soil.

4 The President of the Davangere Municipality reports that the Sanitary Engineer on being addressed, has written to say that he has applied for an extra establishment for surveying the

Requesting to kindly order the preparation of a drainage project for the town of Davangere & sanction it early, as also the grant of half the cost thereof from State funds.

town of Davangere and that then an estimate of the probable cost of the drainage scheme would be got up

5 I am of opinion that in the absence of proper drainage system for the town, its health may be affected after the completion of the water supply for the reason set forth in para 3 above and request therefore that Government will be pleased to order the preparation of a project and sanction it early as also the grant of half the cost thereof from State Funds so that the drainage scheme may follow the water supply project

6 As regards the other half of the cost to be borne by the Municipality, it may also be advanced as a loan to the municipality at a favorable rate of interest,- the same to be repayable by instalments in 20 years

I have the honor to be,

Correspondence ending with letter No.568 dated the 30th May 1916 from the Deputy Commissioner, Chitaldrug District forwarding an extract from the proceedings of the Municipal Council of Davangere dated 27th February 1915 agreeing to bear one half of the probable cost of the drainage scheme for that town and requesting a grant-in-aid of the other half from State Funds and the advancement of a loan, at a favourable rate of interest to the Municipal Council to enable them to bear their half share of the cost

Flag 7

Ld Engr Mr B Subba Rao

- - - - - - -

Order No. 10 Miscl 2016 - 6

Dated, Bangalore, 4 8 16

As regards the question of financing the drainage scheme referred to above the understanding was that Government will be glad to consider it if the moiety of the cost could be raised locally The proposal now is to apply to Government for a loan to meet the Councils' share of the cost, which means Government are now asked to bear the whole cost debiting ~~amount~~ moiety to Municipal accounts to be treated as a loan The question must be referred back to the Municipal Council for devising ways and

means to provide the moiety of the cost Before this is done, the question of Government contribution cannot be taken up.
